

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: Steve Peterson  
DOCKET NO.: 04-27964.001-R-1  
PARCEL NO.: 05-20-116-012-0000

The parties of record before the Property Tax Appeal Board are Steve Peterson, the appellant, by attorney Edward P. Larkin of Park Ridge, and the Cook County Board of Review.

The subject property consists of an 81-year-old, two-story, single-family dwelling of frame construction containing 2,219 square feet of living area and located in New Trier Township, Cook County. Features of the residence include two and one-half bathrooms, a fireplace, a full-unfinished basement and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page brief, property characteristic printouts for the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction located on the same street and block as the subject. The improvements range in size from 2,452 to 3,128 square feet of living area and range in age from 69 to 77 years. The comparables contain two or two and one-half bathrooms, one or two fireplaces, a finished or unfinished basement and a one-car or two-car detached garage. The improvement assessments range from \$22.60 to \$26.00 per square foot of living area. Based on the evidence submitted, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 17,204  
IMPR.: \$ 57,028  
TOTAL: \$ 74,232

Subject only to the State multiplier as applicable.

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$95,319. The subject's improvement assessment is \$78,115 or \$35.20 per square foot of living area. In support of the assessment the board submitted a property characteristic printout and descriptive data on one property suggested as comparable to the subject. The suggested comparable is improved with a two-story, 74-year-old, 3,350 square foot, single-family dwelling of frame and masonry construction with the same neighborhood code as the subject. The comparable contains three full bathrooms, a two-car attached garage, air-conditioning, two fireplaces and a full-unfinished basement. The improvement assessment is \$43.23 per square foot of living area. The board of review's evidence disclosed that the subject sold in August 2003 for a price of \$945,000. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a one-page letter highlighting various differences between the subject and the board of review's comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, age, amenities and design. In addition, they are located on the same street and block as the subject and have improvement assessments ranging from \$22.60 to \$26.00 per square foot of living area. The subject's per square foot improvement assessment of \$35.20 falls above the range established by these properties. After considering adjustments, as well as other differences in the appellant's comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record. The board of review's one comparable is accorded little weight

because it differs significantly from the subject in improvement size.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
